

KLOVE is important to me as an individual and as a member of my community. It keeps me informed of important community issues and events. It provides encouragement to me throughout the day and is the only radio station that I currently listen to. No other radio station in my community has been able to offer this information or provide a source of support to me. If KLOVE were to be taken off of the air to provide LPFM stations priority, then I and other community members would be out of touch with the local news and events that are important to us. I would miss out on opportunities that would make my community a better place – things like volunteer opportunities, opportunities to support local church and community services. I believe KLOVE is in the public interest based on the statistics that indicate that the majority of Americans believe in God. KLOVE is the only radio station in many areas that provide the encouragement, support, information, and opportunities that are important to Christians. Please keep KLOVE on the air. Thank you for giving the listeners the opportunity to share our opinions.
